

The «SPA de CONSTANCE» is the basic concept applied in the Hotels Constance SPA.

All our SPA are developed along two main lines:

- for the Resorts
- for the hotel-boutiques

They all propose a whole range of care services in constant harmony with nature as well as the local environment.

Each facility recommends aromatherapy and promotes the use of products originating mainly from the Indian Ocean region.

The «SPA de CONSTANCE» distinguishes itself by its training centre, the «SPA Academy», and by «Constance Créations» where its fragrances are developed.

Its values are also incorporated in the «SPA Cuisine» concept whose basic principle is to link the advantages of SPA with those of light gastronomy, as well as in a «Coaching Programme» coupled with custom-designed training.
